++++++++++++++

Disappointment was expressed by the railroad officials over the offerings of merchandise for shipment westward, which was not developing as rapidly as had been expected the week before. The grain movement, however, was expanding at a satisfactory rate, and the movement of cotton warranted confidence in the values of the cotton carriers. This group, in fact, played a consplcuous part in the later movements toward recovery in the market, but their movements were so stimulated by manipulation as to lose in sympathetic effect on the rest of the market. Great reliance is placed on the cotton crop to conserve the level of our export trade

pathetic effect on the rest of the market. Great reliance is placed on the cotton crop to conserve the level of our export trade for the coming year, and the growth of apprehension over the corn crop has the effect of enhancing the importance attached to the cotton crop.

The foreign trade return for August showed the value of wheat exports shrunk to insignificant proportions, with no prospect of improvement in the existing condition of that crop. Even the corn exports was barely maintained at last year's unsatisfactory level, thus disappointing the hope of a growth in the foreign demand for our corn as a consequence of the shortage of wheat. The fo eign trade statement displayed a gratifying expansion in the value of exported manufactures, and this was clied as a factor in the great strength developed in the United States Steel stocks. The explanations for this movement were somewhat meager and Stocks. The explanations for this movement were somewhat meager and were not found in reports of conditions in the trade or in the views of trade authorities on the outlook. A very large outstanding short interest in these stocks was standing snort interest in these stocks was suspected as an element in their advance. The large demand for the trunk line railroad stocks was associated with the strength of the steel stocks. But their movement was accompanied by many ru-mors, whose fallure of confirmation threw

mors, whose fallure of confirmation threw the movement open to suspicion of manipulation. Thus it was reported that Pennsylvania was to secure control of Southern Railway and of Atchison, that Eric had obtained the new Cincinnati, Hamilton & Dayton and Pere Marquette combination and would include Toledo, St. Louis & Western in the acquisition, and that the Gould-Pennsylvania dispute had been settled. con settled. Conditions in the money market led to an advance in interest rates for all classes of loans, and this was an adverse influ-nce on speculative buying, although the higher rates of interest asked still remain higher rates of interest asked still remain far from arduous. The rate of withdrawal of cash to the interior gives warning that the demand for crop-moving purposes will be fully up to the average, with a likelihood that they may exceed it, owing to the high prices for commodities. This decline will continue for some time yet. The strength of European money centers at present, and the softness of the sterling exchange market point is the probable path of relief from any threatened stringency.

tringency.

NEW HIGH RECORDS.

What the New York Clearing-House Banks Disclose.

ords for grand aggregate of loans and deposits were registered by clearing-house banks this week. The total of loans, \$1,-140,958,800, is about \$10,000,000 in excess of

Loans .. Circulation Decrease ... Specie Decrease ...

\$16.993.000; a loss in cash of \$23.796.300, and a decrease in surplus reserve of \$28.622.200; since the week ending September 3, inclusive. The surplus reserve now stands \$16.139.255 above that of the corresponding week a year ago; in 1902 there was a deficiency of \$1.642.050.

"The decrease in cash last week was \$8.500.800 or \$1.627.500 greater than the estimated decrease, which was based upon the traceable movements of money during the week; the discrepancy may in part be accounted for by the fact that there was a withdrawal from the banks on Friday of \$290.000, \$290.000 for transfer to San Francisco and \$490.000 to New Orleans, which sums were not included in the estimates.

"Trade deposits were increased \$2,497,200

mates.

"Trade deposits were increased \$2,497,290 and thereby the required reserve was augmented by \$224,400, which sum, added to the loss of cash, made \$3,95,190 as the decrease in surplus reserve to \$29,353,150.

"Computed on the basis of deposits, less those of \$23,453,500 public funds, the surplus is \$5,223,550. Loans were expanded \$19,472,600, though it was not expected that there would be so great an increase because the liquidation had been looked for as the result of the sharp decline in stocks Monday.

"It appears probable, however, that rediscounting for interior banks and the discount of paper for merchants, together with corporation borrowing, contributed to much more than offset the reduction caused by stock liquidation. The statement showed a good balance, the sum of the increase in loans, less the loss of cash being only \$45,400 below the increase in deposits. Circulation was augmented by \$41,500 making an increase in September since September 3, of \$2,382,900. Comparisons show that seven banks expanded loans \$19,000,000 net; six Institutions decreased cash \$6,000,000 net."

luscious late peaches are very plentiful and are selling at \$\tilde{S}\$ and 49 cents a box, wholesale, for nice stock.

Utah grapes are beginning to come in in better form, the principal varieties being Concords. Delawares and Sweetwaters. Some compilaint is made that Utah growers are hardly up to the times in producing this fruit in perfect form, the bunches being noticeably lighter than those produced in California and some other Staes. In flavor the grapes are quite satisfactory. The local produce market was quiet yesterday and virtually no price changes were recorded.

NOTICE TO WATER USERS.

State Engineer's Office,
Salt Lake City, Utah, Aug. 24, 1904.
Notice is hereby given that Joseph Y.
Larsen and D. B. Brinton, whose postoffice address is Murray, Utah (Rural Free
Delivery Route No. 4), have made application in accordance with the vaguirements of chapter 100 of the Session Larse
of Utah, 1902, to appropriate two-thirds
(2-3) of a second-foot of the water flowing from Big Willow spring, situated approximately in the center of the east half
of section 1, township 2 south, range 1
cast, Salt Lake base and meridian, to be
diverted by means of a dam and flume at
a point just below where said spring issues and from where the water will be
conveyed through a flume and pipe for a
distance of about 4000 feet, and there be
used from March 1, to December 31 of
each year for the irrigation of about sixty
acres of land in the southwest quarter
of the southwest quarter of section 1,
and in the routh half of the southeast
quarter of section 2 township 2 south,
range 1 cast, Salt Lake base and meridian, in Salt Lake county, Utah, So much
of said wate, as may be necessary for
watering live stock owned by sald applicants will be used. It is claimed by applicants that the water flowing from sald
spring is now wholly wasted through
scepage and evaporation.

All protests against the granting of sald
application, stating the reasons therefor,
must be made by affidavit and filed in
this office after thirty (30) days and before sixty (60) days from the date hereof
A. F. DOREMUS, State Engineer.

NOTICE TO WATER USERS.

State Engineer's office, Sait Lake City, Utah, Aug. 24, 1994.

Notice is bereov given that Emma Burmester, whose postoffice address is 1217 Fourth street, Sait Lake City, Utah, has made application in accordance with the requirements of chapter 190 of the Session Laws of Utah, 1993, to appropriate eighteen hundredths (9,48) of a second-foot of the water flowing from that certain spring slituated in Sait Lake City and county, at a point which is distant about 185 feet west and 429 feet north of the southeast Corner of section 29, township 1 north, range 1 east, Sait Lake base and meridian, to be diverted by means of a settling tank at the point where the spring issues and from where the water will be conveyed through a pipe for a distance of about 400 feet and there be used from January 1 to December 31, inclusive, of each year. During the irrigation season of each year the water will be used for the irrigation of about two and one-half acres of land embraced in lots 3 and 4, block 32, plat G. Sait Lake City survey. At all seasons of the year the water will be used for supplying ponds to propagate trout and for cullinary purposes on the above described lots.

All protests against the granting of said

linary purposes
lots.

All protests against the granting of said
application, stating the reasons therefor,
must be made by affidavit and filed in
this office after thirty (20) days and before sixty (60) days from the date hereof.

A. F. DOREMUS.

State Engineer.
